# REPORT OF SUPERINTENDENT OF SCHOOLS

To the Citizens of Stoddard:

It is with great pleasure in being able to report on the continued valuable progress of your school program, that I submit herewith my sixth annual report.

As Dr. James B. Conant of Harvard University, has recently pointed out, the cultural pattern of our society will be largely determined by the nature of our education. Our educational system reflects the social structure of this free nation. Our free tax-supported schools are the sinews of our society; they are the product of our special history, a concrete manifestation of our ideals, and the instrument by which the "American" concept of democracy may be transmitted to our future citizens.

Many of our schools have for long, taught what youngsters they could, how to count and read and recite, with little or no attention to the bigger problem of education which was to help them improve their thinking. With this lack of thinking in education, our pupils grew into manhood or womanhood little realizing their handicaps. And in their time we came to have more unproductive areas appearing with their small industries and farms closed down. The schools have failed miserably to train their pupils for the responsibilities of present day society.

Today, in a modern educational setting, pupils learn to read and write and then to use these as tools with which to gain an insight into the wonders of the modern world as recorded in books and to express their thoughts on their readings and learnings. In the pages of history especially in our country, the independent thinkers are the ones who have left their marks of achievement. In our modern school then, we make it possible for each child to think independently whenever possible rather than to just recite some senseless material.

Towards these goals then, your school has made enormous progress. Through your generous hearts we have been enabled to first of all, renovate the school house so that it is now wonderfully appointed with automatic heat, running water, sanitary toilet facilities and modern furniture. Secondly you have selected school board members who have risen to the educational problems of the times and through their leadership we have been able to purchase and utilize the most modern textbook and reference materials. Mrs. Lane has served us well as a teacher and her pupils continue to bring us honor as they pursue advanced study in high school.

The action of the district in appropriating money to aid high school pupils in their transportation costs now offers such pupils a more truly adequate opportunity to attend high school. During the summer, the area near the school was cleared and made ready for grassing over. This will provide a more adequate playing area. The new slide and swings are much used by the smaller children.

The outstanding work of Kenneth E. Jewett as Fine Arts teacher with his weekly vist to our school is well received and understood in the community.

In conclusion, I wish to thank the citizens of Stoddard who have made our year so successful by having provided such substantial leadership in the school board as has been shown by Mrs. Mansell, Mrs. McClure and Mrs. Hill. Thanks too, go to Mrs. Lane for her conscientious and skilled devotion to her pupils.

Respectfully submitted,
STEWART V. McCORMACK,
Superintendent of Schools.
